

# The Subjunctive in Old English

The subjunctive mood is typically used in headclauses to express some sort of distance from reality: a wish, command, or proposed action. In subclauses it is used more widely, but it is especially common in clauses beginning with *þæt* (“that/so that/in order that”), if-clauses, and with reported information. This document provides examples for these most common types of subjunctive construction.

## Headclauses

### 1. Hortatory: first person (plural) “Let us...”

- Herigen we ures dryhtnes naman.
- Secen we ure cyrcan mid clænnesse 7 mid hlutran mode.
- Bidden we eaðmodlice.
- Ne agymeleasien we þa teoðan sceattas to syllanne.
- Secen we soðne gefean.
- Þancien we ussum dryhtne.
- Wuldrigen we ærest ælmihtigne God.
- Wyrccen we 7 bidden we.

### 2. Optative: Expressing a wish

- Ealle hie cigdon 7 cwædon, “sie he ahungen.”

### 3. Jussive: Indirect commands in the third person

- Se þe godum offrie buton Gode anum, slea man hine.
- Geweorðe leoht.

## Subclauses

### 1. Purpose clauses: “in order that”

- And þa beseah he hine þæt he gesawe þæne ðe þæt dyde.
- Syle me on þeowdome for hine, þæt þu þinne sunu eft onfo.
- Ða gewende he to rome be ðæs caseres hæse þæt he hine betalde gif he mihte.

### 2. Result clauses: “so that”

- Gif he þonne ful beo, slea man hine, þæt him forberste se sweora.
